

## JUNIOR PLC COMMISSIONING ENGINEER (M/F/D)

**You are just starting your professional career and have completed a technical education? You would like to travel the world and be part of an international successful, growing company? We as TGW are ready to invest in your professional and personal development!**

**In your incorporation phase, you will learn step by step about our various product lines and prepare the first systems in-house. Then you will travel to our customers worldwide (such as Zalando, Adidas, Puma, Kärcher) and support the commissioning of the systems. You will be supported by a team of experienced colleagues on site as well as at in Teunz.**

### TASKS

- You prepare the software (Siemens S7) together in a team and test it in the in-house using a 3D emulation
- Then you support the commissioning of our systems on site (mechatronic and software)
- After the system tests, you support our customers during the startup of the system
- Back in Teunz you hand over the project to our customer support
- After that, the next exciting project awaits you

### REQUIREMENTS

- Technical professional training or comparable qualification
- Certification of electrically skilled person
- Basic knowledge in PLC programming (Step 7 or TIA Portal) as well as in bus systems (Profinet and Profibus)
- Willingness to travel (about 75% - 90% mainly in German / European area)
- Good command of English is an advantage
- Open-mindedness, flexibility and customer orientation

### WHAT WE OFFER

- Permanent employment with attractive salary and 13 monthly salaries
- Flexible working hours and full compensation of overtime, allowance model for working on site
- A secure job in a future-oriented growth market
- Structured training concept (mentoring) and support by experienced colleagues
- Flat hierarchies with open doors in a collegial working environment
- Staff restaurant, free fruit, employee discounts and much more
- Development and promotion opportunities through structured personnel development
