

# Quality Policy of TGW Mechanics GmbH

**TGW Mechanics GmbH aims to be the best partner and service provider for its customers.**

A well-functioning quality management system is a basic prerequisite for our company in order to be able to fulfil the quality requirements on deliveries and services in a targeted and economical manner.

**Qualified, service-oriented employees are the basis of the company's success.**

All employees are obligated to bring their activities and work results into compliance with the requirements of this management system.

**Optimizing the processes and guaranteeing continual product improvement.**

The continual improvement of processes in the company guarantees that qualified employees deliver the best product quality to TGW customers through efficient and effective processes.

**Commitment.**

The board of management and all employees are committed to meet all measures in order to realise the quality policy and maintain it as well as to guarantee quality targets are met and to monitor this.
