

PROJECT MANAGER (M/F/D)

We develop and realize highly complex intralogistics projects for international customers from different industries. As a Project Manager (m/f/d) Software, you are responsible for the software part of the projects and for the technical and economic result. You will be supported by a team of specialists.

Meet your new challenge in Teunz, Regensburg or Stephanskirchen near Rosenheim.

TASKS

- As a Project Manager (m/f/d) Software you are responsible for our software projects during the entire project period from order intake to approval by the customer
- You analyse the business requirements of our customers and record them as user stories in Jira
- During the development process, you represent the interests of our customers within the Scrum Team as Product Owner
- After completing the development, you are responsible for the organisation of the commissioning
- You act as the contact person to our customers and to our internal and external partners

REQUIREMENTS

- Experience in agile software development and/or agile project management
- Team player with fun in dealing with people
- Conflict ability, diplomatic skill and a good assertiveness
- Willingness to travel abroad and a very good command of German and English

WHAT WE OFFER

- Permanent employment with attractive salary in a family-friendly company with flexible working hours
- Secure job in a growth market
- Structured onboarding concept and support from experienced colleagues
- Collegial working environment and a large freedom of action
- Staff restaurant, free fruit, employee discounts and much more
- Individual opportunities for further development through structured personnel development
