

PROJECT ENGINEER SALES (M/F)

Working closely with the sales departments, you will create tailor-made mechatronic solution concepts with our existing customers. You will attach particular importance to their process landscape in order to optimise and extend the existing material handling systems at the best.

TASKS

- Creation of conceptual, tender and offer layouts
- Calculation of throughput performance, warehouse design and selection of products
- Calculation of mechatronic equipment
- Comparison of quotes and check of logistics sub-supplier equipment
- Technical advice to the sales team
- Contact person for technical questions of customers and suppliers

REQUIREMENTS

- Technical education (Automation Engineering, Mechatronics, Mechanical Engineering)
- Several years of job experience (preferably in the logistics business)
- Knowledge of mechatronics and CAD know-how
- Sales orientation focusing on customer-optimised solutions
- Independent and structured method of working
- Ability to work in a team and collaborate with other departments
- Good command of written and spoken German and English
-

WE OFFER
