

SAP (E)WM SPECIALIST (M/F/D)

As general contractor for intralogistics solutions TGW offers state-of-the-art systems based on SAP. As SAP (E)WM Specialist you will be the first contact person of our customers and will be responsible for the connection of our system to the customer's SAP system and IT infrastructure. With the SAP (Extended) Warehouse Management you will ensure smooth and ideal logistics processes for our customers.

TASKS

- Analysis and optimisation of existing customer's processes and integration of new logistics processes in the existing customer SAP applications
- Planning and implementation of specifications in the SAP (E)WM environment and of relevant interfaces in the IT landscape
- Customising of existing customer SAP applications based on newly created specifications
- Support and consulting during the implementation and optimisation of TGW SAP (E)WM applications
- Creation of comprehensive project documentations in the SAP environment

REQUIREMENTS

- Successfully completed HTL (Higher Technical School), university or FH (University of Applied Sciences) education with focus on Informatics, Business Informatics or Logistics
- Several years of relevant professional experience in an industrial SAP environment, preferably in the area of project management, customising or implementation of logistics processes
- Profound knowledge of SAP (E)WM and SCM or logistics modules (e.g. MM, TRM, etc.)
- Basic ABAP programming knowledge
- Very good command of German and English and willingness to travel abroad (approx 30% of working time)
- Independent and committed personality with entrepreneurial thinking and developed communication skills

WE OFFER

The minimum annual gross pay for this position is 40,075 Euros according to the collective agreement. A possible overpay depends on your individual job experience and qualification.

Furthermore, we offer flexible working hours, a cooperative working environment with attractive benefits and exciting perspectives.

Use your know-how and skills for an exciting job and start your career in a diversified field of responsibility in an international network for automated logistics technology.

You can expect responsible tasks in an international corporate environment. Become part of an ambitious company, contribute your ideas and shape the future of TGW with us.

Living Logistics. Promoting Careers.
