

PROJECT MANAGER (M/F/D)

Our company, with its headquarters in Marchtrenk and subsidiaries in Europe, America and Asia, develops and implements high-end material handling solutions worldwide. TGW stands for teamwork and growth worldwide.

In this diversified position, you will assume the technical and commercial responsibility for the project implementation. Leading a team of experts, you will be the contact person for our customers and ensure the implementation of a project in due time and according to the requested quality.

TASKS

- Overall responsibility for technical project management in terms of deadlines and costs from the order intake to the end of warranty
- Coordination and profession management of the entire project team
- Schedule and capacity planning as well as creation of system specifications
- Creation of requirements specification for purchased components
- Contact person for customers, sales department and suppliers
- Development of solutions for project optimisation
- Order documentation and controlling

REQUIREMENTS

- Completed technical education (Mechanical/Electrical Engineering, Mechatronics, IT or similar)
- Several years of professional experience in project management, ideally in plant construction
- Very good command of German and English
- Customer-oriented and professional way of working
- Result orientation and organisational skills
- High degree of initiative and decisiveness
- Willingness to travel up to 25% of working time

WE OFFER

The minimum annual gross pay for this position is 47.464,- Euros according to the collective agreement. A possible overpay depends on your individual job experience and qualification.

Furthermore, we offer flexible working hours, a cooperative working environment with attractive benefits and exciting perspectives.

Use your know-how and skills for an interesting job and start your career in a diversified field of responsibility in a network for automated logistics technology.

Living Logistics. Promoting Careers.
