- PLC/Control programming with Step 7 Siemens
- Compliance with process instructions and internal policies (travel policy, site report/journal, order and cleanliness, ...)
- Thorough commissioning preparation (documents, tools, spec sheets, software, requirements specification, services, ...)
- Compliance with general and operator-specific safety procedures
- Support of the OnSite Manager / collaboration in on-site team
- Qualified and self-dependent commissioning of the assigned machinery
- Interface test of superordinate MFS interface
- Handover of a system tested and checked for correct functioning and availability
- Training of customer's personnel
- Feedback to software engineering department
- Identification of errors and improvement potentials (CIP) - own/of third parties
- Correction / modification of order documents in case of changes during commissioning; timely forwarding of modified documents to the author/creator
- Filing and archiving of final software versions during and after the commissioning
- Responsibility for a timely processing of open issues
- Hotline support in technical matters
- Specific troubleshooting and repair visits

CRITÈRES

- Technical education (electrical engineering, mechatronics, or similar; at least completed apprenticeship with additional qualification)
- Experiences with PLC programming, preferably Step 7 in FUP and AWL
- Practical experience with variable-speed drives (three-phase asynchronous + servo drives; frequency converters)
- Work experience with bus systems (Ethernet, Profibus, CAN and ASi)
- Construction site and professional experience (material handling & logistics) desirable
- High willingness to travel home and abroad (approx. 90% of time)
- Stress resistance, flexibility, reliability and loyalty to the company
- Knowledge of foreign languages

NOUS OFFRONS

- Salary depending on your job experience and qualification
- Expense allowance
- Fringe benefit to be defined based on experience and role
- Flexible working time model
- Internal training in Italy and Austria for junior profiles
- A young and dynamic environment, TGW Italia is part of TGW Group Austria, world's logistics market leader in strong expansion, with almost 3000 employees and 15 manufacturing and trading branches worldwide
- Possibility of internal career in Italy and abroad
