

# QUALITY MANAGEMENT ENGINEER (M/F/D)

TGW Logistics Group as an international, fast-growing company is one of the global players in the intralogistics industry. Our growth constantly presents us with new challenges in many departments, including quality management. Therefore, we are looking to strengthen our team at the Wels office. As a Quality Engineer, you are the contact person for questions concerning QM and make an active contribution to maintaining and developing our quality management system. As a dynamic and responsible person, you carry the service concept out into the organisation and convince us with your focus on service, paired with diplomatic skills.

Do you have relevant job experience in quality management and a high degree of self-motivation? You would like to continue your career in a successful, future-oriented company and develop advance your personality as well as your professional skills? Then the following offer might be of interest to you:

## WHAT YOU'LL BE HANDLING

- Providing support in maintaining and continuously developing the ISO 9001 certification
- Contributing to the planning, performance and follow-up of internal and external audits
- Collaborating in current certification processes (e.g. TÜV audit, UL, CSA)
- Participating in cross-departmental quality projects
- Verifying and approving the quality management documents (central document management)

## WHAT YOU'LL NEED

- Completed technical or economic education
- Relevant job experience and knowledge of production and quality processes
- Knowledge about the ISO 9001 standard of advantage
- Communicative and motivated personality who likes to work in a team
- Good command of English (minimum required: level B1 according to CEFR)

## WHAT YOU'LL RECEIVE

The minimum annual gross pay for this position is 37,030 Euros according to the collective agreement. A possible overpay depends on your individual job experience and qualification.

Furthermore, we offer the safety of a privately owned company, flexible working hours and a cooperative working environment with attractive benefits.

Use your knowledge and skills for an exciting job and start your career in a diversified field of responsibility in an international network for automated logistics technology.
