

# PLC SUPPORT ENGINEER (M/F/D)

As PLC Support Engineer you will be the contact person for our international customers and together with a team you will provide optimal support for our materials handling systems. In this position you will help to solve controls incidents in our installation by means of remote maintenance access and you will therefore ensure smooth operation at our customers' sites.

## WHAT YOU'LL BE HANDLING

- Technical support and consulting of our customers worldwide
- Analysis of malfunctions and development of solution options or workarounds on PLC-controlled TGW sites via remote maintenance
- Identification and correction of error potentials
- Close collaboration with IT Support, 2nd Level Support, Product Development, PLC Commissioning Engineers and customers

## WHAT YOU'LL NEED

- Profound technical education (vocational school or higher technical college) in the field of electronic engineering/automation engineering/mechatronics or completed apprenticeship training as mechatronic engineer with first job experience
- Knowledge of PLC controls (preferably Siemens Simatic S7) and use of bus systems (Profibus, ASI) as well as of regulated drives
- High degree of customer orientation and commitment
- Ability to work in a team with good communication skills
- Good command of English
- Driver's license (class B) as well as willingness to travel (about 10 per cent)

## WHAT YOU'LL RECEIVE

The minimum annual gross pay for this position is 32,133 Euros according to the collective agreement. A possible overpay depends on your individual job experience and qualification.

Furthermore, we offer flexible working hours, a cooperative working environment with attractive benefits and exciting perspectives.

Use your know-how and skills for an exciting job within a dynamic company culture and start your career in a diversified field of responsibility in a motivated environment.

Living Logistics. Promoting Careers.

	Tipo di contratto di lavoro	tempo pieno
	Categoria	Assistenza e supporto Clienti
	Sede del lavoro	Marchtrenk, Upper Austria
