

JAVA DEVELOPER (M/F/D) / SOFTWARE DEVELOPER (M/F/D)

Developing software is more than just writing code. If you see it that way too, then you fit quiet well with us as a Java developer (m/f/d). Our software solutions help our customers worldwide to get their goods to their destination on time and reliably. Agile and with the latest technologies, you implement standard components of the iWACS® product family or project-specific adaptations for our customers. And regional in Teunz or in Regensburg.

TASKS

- In international and cross-functional Scrum teams you work as a full-stack developer with a variety of technologies (Java SE 8, Oracle, Eclipse, Jira, Confluence, SVN)
- You accompany the project over the entire period, from design through implementation and optimization to project acceptance
- You ensure the quality of the software in our in-house test environment

REQUIREMENTS

- Degree in computer science or equivalent qualification
- Good knowledge in software development, preferable in Java
- Good knowledge OOP and SOLID, experience Scrum is an advantage
- Creativity, responsibility and joy of working with colleagues in an international environment

WHAT WE OFFER

- Permanent employment with attractive salary and 13 monthly salaries
- Flexible working hours and full compensation of overtime, part-time possible
- A secure job in a future-oriented growth market
- Structured training in a mentoring program and support by a team of experienced colleagues
- Freedom for agile, creative work
- "Moving" tasks: our software controls hardware – you implement international high-performance logistic projects for well-known customers
- Staff restaurant, free fruit, employee discounts and much more
- Individual opportunities for development through structured personnel development

We look forward to your complete application documents, preferably by e-mail to jobs-tss@tgw-group.com (PDF file) or online using our application portal.
